Job Description

As an Environment Supervisor, you will be responsible for ensuring mining operations are conducted in compliance with environmental standards and regulations. This position focuses on implementing and monitoring environmental programs, waste management, land reclamation, and the management of water and emissions to maintain regulatory compliance.

Education & Experience

- Bachelor's degree in Environmental Engineering, Environmental Science, or related field.
- Minimum of 3 years of experience in the environmental field in the mining industry.

Must Have

- **Educational Background:** Bachelor's degree in Environmental Engineering, Environmental Science, or a related discipline.
- **Experience:** Minimum of 3 years of hands-on experience in environmental management within the mining industry.
- **Regulatory Knowledge:** In-depth understanding of national environmental laws, regulations, and standards applicable to the mining sector (e.g., environmental permits, waste management, air and water quality standards).

Educational Requirements

Bachelor Degree

Compensation & Other Benefits

Competitive salary Health and insurance benefits Accommodation and transportation facilities Career development opportunities in the mining industry
