Job Summary

Vacancy :

Deadline : Sep 20, 2023

Published : Aug 20, 2023

Employment Status : Full Time

Experience : 1 - 3 Years

Salary : Salary Negotiable

Gender : Any

Career Level : Staff

Qualification : Bachelor Degree

Job Description

Geotechnical Engineers focus on the behavior of earth materials and design structures that interact with the ground. In the mining context, they assess soil and rock conditions to ensure safe excavation and construction. They also provide recommendations for slope stability, ground support systems, and risk mitigation.

Education & Experience

Bachelor's degree in Geotechnical Engineering, Civil Engineering, or related field.

Must Have

- Expertise in soil mechanics, rock mechanics, and geotechnical analysis.
- Familiarity with geotechnical software for slope stability and ground support analysis.
- Ability to conduct site investigations and interpret geotechnical data.
- Strong communication skills for presenting findings and recommendations.

Educational Requirements

Bachelor Degree

Compensation & Other Benefits
